To whom it may concern,

### **RECOMMENDATION FOR UNDERGRADUATE PROGRAM**

Referring to the above matter, Muhammad Waiee bin Zainol was my student for one of his semester in his Foundation in Information Technology Program in Multimedia University.

In my observation during the lecture and tutorial sessions (virtual classes), Waiee had demonstrated commitment and dedication in his study. Besides, he exhibits several commendable characteristics such as humble, well-mannered and displayed moderate participation in class.

With the aforementioned reasons, I offer my recommendations for Waiee for his application in your university. If you have any further question, please do not hesitate to contact me at [slng@mmu.edu.my](mailto:slng@mmu.edu.my).

Yours truly,
